- <https://www.linkedin.com/in/gnbhuvaneshwaran/>

TECHNICAL SKILLS

Programming Languages:

Python, Java, C, C++, JavaScript

AI/ML & Analytics:

Machine Learning, RAG Systems, Pandas, NumPy, Predictive Modeling, Statistical Analysis

Data Visualization & BI:

Power BI, Tableau, Data Visualization, Dashboard Development

Backend & Databases:

MySQL, Database Integration, Authentication Systems

Tools & Technologies:

Git, GitHub, VS Code

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science

Amrita Vishwa Vidyapeetham | 2024 – 2028

CGPA: 6.6 / 10

Relevant Coursework:

Data Structures & Algorithms, Database Management Systems, Machine Learning, Object-Oriented Programming

CERTIFICATIONS

- AI & Machine Learning
- Python Programming
- Java Programming
- Data Analytics
- Power BI
- Tableau

PROFILE

B.Tech Computer Science student building AI/ML, analytics, and software projects using Python, RAG systems, and data visualization tools. Experienced in developing machine learning models, backend applications, and data-driven solutions. Interested in AI engineering, analytics, and scalable software systems.

KEY PROJECTS

RAG-Based AI System | Python, LangChain, FAISS

- Built a Retrieval-Augmented Generation (RAG) system for document-based question answering
- Implemented semantic search and vector retrieval using embeddings and faiss
- Improved response relevance using chunking and preprocessing techniques

Machine Learning Prediction Project | Python, Pandas, NumPy

- Developed a machine learning prediction model using Python and data preprocessing techniques
- Applied regression and statistical methods for predictive analysis
- Performed feature engineering, model evaluation, and data visualization

NVIDIA Growth Analysis (EDA) | Python, Pandas, Matplotlib

- Conducted exploratory data analysis on NVIDIA growth and performance datasets
- Performed data cleaning, trend analysis, and statistical visualization using Pandas and Matplotlib
- Generated insights through graphs and dashboards to support data interpretation

Banking Management System | Java, MySQL

- Developed a Java-based banking system with account creation, deposit, withdrawal, and balance tracking
- Integrated MySQL database operations for secure transaction management
- Implemented authentication and transaction validation features

Payroll Management System | Java, MySQL

- Built a payroll management application for employee and salary administration
- Implemented attendance tracking and payroll calculation features
- Integrated database storage for employee records and payroll management

ACHIEVEMENTS & ACTIVITIES

Ignite Workshop Participation

- Presented entrepreneurial and technical ideas to investors and industry professionals
- Participated in innovation and business discussion sessions
- Demonstrated problem-solving and presentation skills during workshop activities
